

Alex Shepherd

(519) 731-6449 | alshe0644@gmail.com | alexshepherd.dev | github.com/7shep | Elora, Ontario

EDUCATION

Queen's University

Kingston, Ontario

Bachelor of Computing, Artificial Intelligence Sub-plan

Expected May 2028

- **Relevant Coursework:** Artificial Intelligence, Machine Learning, Linear Algebra, Statistics, Software Design

Centre Wellington DHS

Fergus, Ontario

Specialist High Skills Major in Information and Communications Technology

June 2024

- Graduated with Honours

EXPERIENCE

QMIND

Fall 2026 – Present

Director of Web Development

Kingston, Ontario

- Built and deployed a full-stack QMIND hiring workflow used by **100+ users**, exporting submissions to Google Sheets via webhook and adding Discord failure alerts plus an automated recovery script

QWeb, Queen's Web Development Club

Winter 2026 – Present

Development Executive

Kingston, Ontario

- Lead the developer team in **agile sprints**, coordinating task assignments, code reviews, and delivery for club web properties deployed through **Vercel**
- Oversee external client web development projects, managing delivery from design through deployment

Development Director

Sept. 2025 – Winter 2026

- Implemented and deployed **qweb.dev/education**, including testing and production release work for the club resource hub

QHacks

Jan. 2025

Hackathon Participant – SmartKingston App

Kingston, Ontario

- Built a civic engagement mobile app with messaging, authentication, posts, and user profiles using **TypeScript**, **React Native**, **Supabase**, and **Expo**
- Integrated a **Gemini AI**-powered recycling assistant for real-time object recognition and waste classification

Cisco Networking, Centre Wellington DHS

Sept. 2023 – May 2024

CyberTitan Participant

Fergus, Ontario

- Competed in a nationwide ethical hacking tournament, advancing through three qualifying rounds to finish **12th in Canada** while applying network security practices in **Cisco Packet Tracer**

PROJECTS

Universal | MCP, React, TypeScript, AI Agents

Personal Project

- Built an MCP-powered design tool with **20 custom skills** and a full MCP setup, enabling AI coding agents to generate design-focused React interfaces; shipped a marketing website and iterated across **200+ commits**

Screenshot-To-Code | VS Code Extension, React, TypeScript, AI

Personal Project

- Built a **Visual Studio Code Extension** that converts UI screenshots into interactive **React TSX** components using a multi-pass AI pipeline
- Added support for component refinement, two-state generation, style presets, Framer Motion animations, and design system context scanning

MLB WAR Predictor | Python, XGBoost, Machine Learning

Personal Project

- Built an **XGBoost** model that uses comprehensive Minor League hitting data to predict a new MLB player's **Wins Above Replacement (WAR)** from their minor-league performance

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java

Frameworks and Libraries: React, React Native, Expo, Node.js, Discord.js, XGBoost

Developer Tools and Platforms: Supabase, Firebase, Git/GitHub, Vercel, Cisco Packet Tracer, Ollama, MCP
